EDUCATION

1400-Present

ISLAMIC AZAD UNIVERSITY

- Bachelor: Computer science

SKILLS

- Linux
- Git
- Bash
- Go
- Python
- SQL
- Docker
- Kubernetes
- Windows Server
- Nginx
- IIS
- Azure DevOps
- GitLab
- Prometheus and Grafana
- Ansible

LANGUAGES

- English (Intermediate)

PROFILE

Hey, I'm Shayan , a tech enthusiast passionate about DevOps and automation. I love working with cloud technologies, optimizing systems, and making things run smoother. With a background in Computer Science, I'm always learning new tools and approaches to build scalable, efficient solutions.

WORK EXPERIENCE

AFARINESH IELTS HOUSE 2023

IT Help-Desk

- Conning a variety of modems and access points, Mikrotic conscation and router, ngerprint device connectivity, connectivity and projection of network users.

Mahan Madan Pars 2024

Programmer

- We specialize in computer vision and intelligent data processing using Python. Our solutions leverage advanced image analysis and machine learning techniques to extract actionable insights from visual data. From information gathering to automated processing, we build systems that transform raw data into meaningful results.

Tart 2025 - 2026

Junior DevOps

- Managed both Windows and Linux servers, including Nginx and Docker environments. Worked with Azure DevOps for CI/CD pipelines and deployment automation. Supported SRE tasks, system monitoring, and performance optimization. Experienced in working with Prometheus and Grafana for monitoring, metrics collection, and performance visualization.

Ressa-HamrahAval 2026 - Persent

- Worked with OpenStack, Docker, and Kubernetes in cloud infrastructure environments
- Configured and maintained Linux servers and infrastructure services
- Managed physical servers using HPE iLO and container technologies
- Assisted in deployment, troubleshooting, and infrastructure optimization
- Contributed to and reported issues for OpenStack and Kolla-Ansible open-source projects
